WELCOME TO THE FUTURE...

Where humanity is under constant attack from a brutal alien threat.

The Komplex spreads through the galaxy and growing stronger with each system they conquer, each species they defeat and assimilate. And now they are here.

To defeat them, humanity relies on an elite team, the Forge, who pilots an armada of spacecraft known as Snap Ships. Fast attack craft, armored bombers and so much more, the Snap Ships are designed to be modular to build the perfect ships for battle.

And these Snap Ships are the last shot they have at stopping the Komplex.

SAWFLY K.L.A.W. MINELAYER

The Sawfly is an anti-material attack ship which has powerful armatures that rip open armor plates to place high-explosive mines into the fissure. Armor-piercing projectiles launched from its top-mounted cannon serve as deadly backup. Locust is a formidable threat thanks to its:

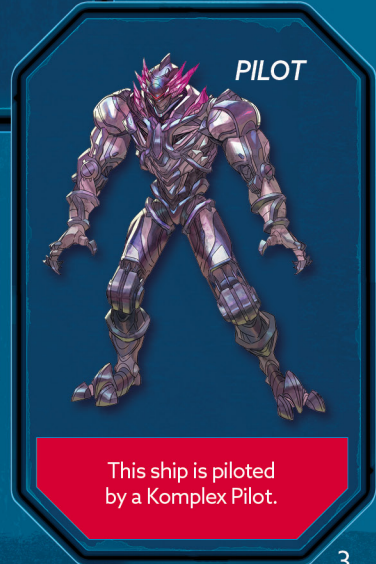

- **CM-32** Mine Rack with powerful anti-material mines
- **ARTICULATING ARMATURES** that can rip apart enemies
- **CI-5MM GAUSSE CANNON** with high-velocity coilgun releasing 250 rounds/minute

SURPRISING IMPLOSION!

You have discovered the UJU tech dubbed the UX-41 Implosion Mine. It creates an implosive charge that has the ability to generate enough center of mass energy to create an impressive and devastating momentary micro-singularity that enemies will not see coming.
